

Practicum

Practicum in OBOD culture is the application and real life practice of Druidry within our lives, ritual and ceremony. Here in Practicum we compile and demonstrate for you the various ways and ideas to which you can apply Druidry into you own life as the many members of House of Danu have. This will be an ongoing list as these are compiled for you, so please do check back often. If you have items you feel should be submitted here please send them to webmaster@houseofdanu.com.
